

Tobex[®]

Multi MoA Concentrate

Multi-Active. Multi-Benefit.

Unleash the Power of Multiple Modes of Action

Tobex[®] Multi MoA Concentrate is an all-in-one insecticide (Group 3A and 7C) with controlled release technology for use in and around unoccupied areas of livestock facilities. This powerful combination of a synergist, insect growth regulator, knockdown agent and long-lasting insecticide controls house flies, darkling beetles and other listed insects. With Tobex, there is no need to tank mix multiple products – you get multiple modes of action in one bottle.

Features and Benefits

- Labeled for indoor, outdoor and broadcast use
- Kills house flies, darkling beetles, mosquitoes and other listed insects
- Synergized with piperonyl butoxide (PBO) to fight insecticide resistance
- Formulated with NyGuard[®] IGR to help control adult and immature insects

Packaging

- 1 quart unit (6 per case)
- 2.5 gallon unit (2 per case)
- 30 gallon drum
- 275 gallon unit

Use Tobex as part of an Integrated Pest Management Program

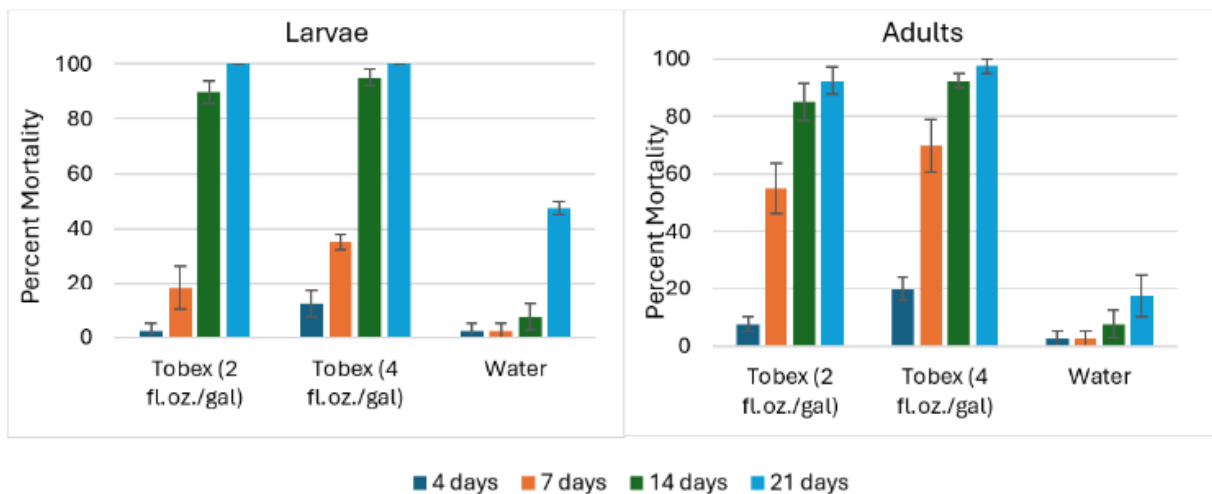

For best results, use Tobex as part of a balanced integrated pest management program to control the targeted insect. Rotate your insecticide mode of action to combat insecticide resistance.

Insects are more than an inconvenience; they can have negative effects across all areas of economic loss. It will cost more to do nothing about insects than it will to control them.

Effects of Tobex on Resistant Darkling Beetles on Plywood

Effects of Tobex on Resistant Darkling Beetles on Tile

What does this data mean to your business?

Tobex effectively kills both immature and adult darkling beetles. This study compared 2 rates of Tobex against darkling beetles on porous and nonporous surfaces. Immature and adult beetles were exposed to treated surfaces for 14 days.
